

WebbGlide EZ

TRACKLESS, CORDLESS WINDOW TREATMENT SOLUTIONS

The innovative WebbGlide EZ shade system features **trackless**, cordless fingertip control. The trackless design allows for:

- versatile mounting options, resulting in a simple and less expensive installation
- outside mount installation without added hardware costs

Eliminating cords, wands, and pulleys, the simplicity of design gives you a long-lasting easy-to-use shade that stops where you leave it. The flat vertical surface repels dust, and can be wiped clean and sanitized right in the window.

The WebbGlide EZ is a durable and attractive alternative for offices, hospital patient rooms, schools, dormitories, elder care facilities, military housing, and any other environment needing trouble-free window treatments.

FABRIC CHOICES - IDEAL FOR COMMERCIAL USE

VINYL SHADE FABRIC

WebbShade's custom print collection includes both blackout and light filtering patterns offering 100% privacy. Want to create an extraordinary environment? We offer in-house custom printed patterns, logos, or photos on your shades.

SOLAR SCREEN MESH

Choose from Vertilux Sunscreen, Alkenz Sunshadow or Phifer 7100 in various weights, light filtering percentages, and color assortment. They can also be printed to your specifications.

Decorative fabric textures add a warm, elegant atmosphere to long term residential facilities, libraries and schools. All fabrics are GreenGuard certified, anti-bacterial (ASTM G21, ASTM G22), environmentally friendly (Oeko-Tek Standard 100), energy saving, and non-toxic, as well as flame retardant (NFPA 701, CA US Title 19).

All WebbShades are proudly made in the USA.
